

Contractors Pollution

Renovate, Repair and Paint

R.R.P.

Did you know

99%

of CGL policies come
with a total pollution exclusion?

You'll be surprised just how much
you can save.*

As of April 22, 2010, the Environmental Protection Agency will require that any contractor performing work on a pre-1978 home or child-occupied facility comply with new lead paint-safe regulations. Our contractor's pollution liability coverage program for painters and contractors satisfies the exposure created by this new regulation. Lead poses a pollution risk that should not be overlooked!

*Minimum Premiums: Starting at just \$2500
Limits: Starting at 1 million with higher limits available
